

Random Signals and Noise (NETW504)

Dataset Selection - First Task

Prof. Talal Elshabrawy

For the first task, please follow the steps below:

1. **Form a team:** Each team can have up to 4 students.
2. **Choose a dataset from Kaggle:** The dataset should be well rated and contain at least 10,000 samples.
3. **Make sure it is a classification dataset:** The target should be categorical and have between 2 and 4 classes/labels.
4. **Check the shared Excel sheet before submitting:** Each team must choose a different dataset. If the dataset is already listed in the sheet, please choose another one.
5. **Submit your selection:** Send the names and IDs of all team members, the dataset name, and the Kaggle dataset link.

Important: Please check the Excel sheet before you finalize your dataset. Duplicate datasets will not be accepted.

What to submit

- Names of all team members (maximum 4 students)
- Student ID of each team member
- Dataset name
- Kaggle dataset link

Excel sheet: https://docs.google.com/spreadsheets/d/1isJsohRFdEWqsgtF1UHW6NeELE1_499TYCZ-2pbbKPo/edit?usp=sharing

Google Form: <https://forms.gle/YmQ6pv5UQgRAwuJi8>

Deadline: 01 Oct. 2026

Please make sure the dataset meets all the requirements before submitting your team selection.
